Report No D E 267/45-46 dated 29-7-1946 from the Municipal Engineer, City Municipality, Bangalore

---

Subject - The Modified estimate for cement concreting Sethu Rao street from the junction of Police Station Road in III A Division

An estimate for Rs 11,000/- for cement concreting the above road was sanctioned by the Government in their order No L 9611-3/M1 40-45-31 dated 11th March 1946

During the inspection of the above road by the undersigned in company with the representative of the Cement Concrete Association, it was found that under very heavy traffic the road was worn out very un-evenly and this has been already reported to the Municipal Commissioner in this office No D C 83/45 dated 4th June 1946 It was proposed to carry out the work by raising the surface level on the lower side to the required height by using about 3,447 cubic feet of lean concrete as against 2,040 cubic feet provided in the original estimate This results in an excess of Rs 1,405/- in cost over the sanctioned amount under the item 'Sub-grade' This excess in cost will be met out of the sanctioned amount of Rs 11,000/- for the above work in which the savings will be Rs 600/- due to reduction in width of road

It was also proposed to lay the concrete for a width of 20' only against the sanctioned width of 24 feet in the estimate to facilitate the repairs to the underground sewer lane running by the side of footpath on the western side Necessary provision and materials required for the above work have been included in the modified estimate to complete the work This work also is being carried out departmentally by engaging labourers on daily wages The required quantities of metal have been collected for the work as per lowest approved tender rate of the division Cement and bitument have been supplied departmentally Sand has been conveyed in Municipal lorry from Kumbalgud Concrete mixer has been used for the work The water lorry also has been used for watering purpose The necessity for modifying the estimate is

[redacted] approved divisional tender rate and present [redacted] rates.

[redacted] may be placed before the Managing Committee and [redacted] for their approval and [redacted] sanction thereon may be obtained early.
